

WHAT THE DOCTORS DID TO ME...

WHAT THE DOCTORS DID TO ME...

OUR PATIENTS SPEAK OUT

Dr James R Fedich

WHAT CHIROPRACTIC HAS DONE FOR ME!

**Village Family Clinic
1500 Route 517
Allamuchy NJ 07840
908-813-8200**

TWO YEARS AGO I did not know what to do next. I had to stop line dancing, used a walker, and lived in horrible pain. I was going up 517 and saw a sign, I felt what could hurt? I made a call and the most awesome person set me up with an appointment. Dr. Fedich referred me to different doctors that did my hips and knees. Everyone was friendly. Two years and everything I needed, I got. I am back to line dancing; I was ready to give up. There's is not enough good I can say about these people. I would stand on top of a mountain and sing their praises! Go see Dr. Fedich and his team! They will figure out your problem and it will be addressed!! They all work so well together, FOR YOU!

I am able to move better and with less pain! It's the small things that can hurt the most, a disc out of place can cause a lot of pain and can throw your gate off. The availability of doctors on staff at Village Family Clinic, the products that are offered, and the knowledge the doctors are more than willing to give to your body and ways to make you feel better is what pleased me most.

Macio Thompson

Port Murray, NJ

Chiropractic care has improved my life 100%!! When I first came I had shooting pain down my legs, my back was spasm, and my neck was so stiff it would not turn. Now the pains in my legs only happen once in a while, If I am having a bad pain day due to many different illnesses I suffer from, one visit along with acupuncture I am able to walk out a new and pain free person! I would tell anyone to try chiropractic care! I love the doctors at Village Family Clinic and the staff is always friendly and helpful. They will do whatever it takes to make you feel better. If you are hurting on a day where you do not have

an appointment they will fit, you in. Acupuncture and Chiropractic leave you in such a relaxed state of mind and pain free!

Marie Vernay

Hackettstown, NJ

Chiropractic has helped improve my migraines and has helped to control tingling in my hands and feet due to a nerve issue in my neck! I would tell anyone to try chiropractic because it is a painless practice that helps you, compared to medicine! The knowledge of the staff and the generosity of the team is what pleased me most about the office! It is a great visit every time!!

Courtney L. Derr

Hackettstown, NJ

Since going to the Chiropractor, the pain in my legs and back has been greatly reduced allowing me to complete my daily activities and also allowing me to be more active. Chiropractic comes highly recommended by me! I appreciate and enjoy the fact that I have been able to relieve my pain and discomfort without the use of medication and surgeries. What pleases me the most is how much the doctor and staff care about my well-being. The entire staff is amazing and they are always there to help. I held off on going to the Chiropractor for so long, but the practice came so highly recommended I decided to go, and I am so glad I did!

John Matthews

Wantage, NJ

I am pain free most of the time because of Chiropractic care! Before it I was in pain all day, every day with sciatica. Now I am sleeping better than before! If you are curious about Chiropractic, I would say it works, if you are having any kind of back pain call them for a free consult and start seeing results for yourself. I am improving each visit! The staff is very kind and helpful; they make you feel very comfortable.

Nancy Neuhaus

Budd Lake, NJ

I came to Village Family Clinic approximately two years ago following a long history of sciatica. Throughout the years I had been to many Chiropractors with mixed results. Never once have I found a practice that is truly holistic. Many have claimed to treat the “whole person,” but Village Family Clinic has been the only practice to actually do this. Beyond just for quality of life, I am a long distance runner, and throughout their support and the combination of essential services including Physical Therapy, Massage, and Acupuncture as well as chiropractic, I have been able to achieve many milestones, including my recent completion of the 2015 NYC Marathon.

I would tell my friends and family to schedule a consultation with Village Family Clinic to ask all of their questions, to be honest about any concerns or fears they are having, and give it a try. They will leave feeling more comfortable and with a sense of hope in moving forward. They will never meet a more supportive, happy, and dedicated group of people. all with the same goal of helping you decrease pain and improve the quality of life. I always felt that I was listened to, respected, and provided with realistic and honest information about my prognosis.

There was never hesitation to send me for further testing such as an MRI to make sure that Dr. Fedich working off of the most current data to support treatment.

Kendra Squindo

Califon, NJ

Chiropractic has improved my life by keeping the injured area working with less pain. It is better to keep the area moving, allowing the area to heal up a lot quicker. It seems the ligaments and muscles heal faster when new blood is present. The pleasant atmosphere also brings the practice along way. Everybody is pleasant!

Daniel Yankiv

Great Meadows, NJ

My children are very athletic. They work out and run. They cause stress to their backs and joints. My one daughter even displaced her hip! Thanks to Village Family Clinic the girls were able to understand where their strengths and weaknesses in their bodies. This allowed for care to be very targeted. Previously doctors have told us to use ice, heat, and Advil, now we go for adjustments. **The evaluation process and detailed explanation of the issue helped me believe in chiropractic even before care started.** The ease of scheduling is also a great bonus!

Cathy Nicholls

Great Meadows, NJ

Dr. Fedich is a great Chiropractor. He has helped me with chronic headaches. The staff at Village family clinic are helpful and they always greet you with a warm, friendly smile!

Karen Stone

Northern, NJ

The two doctors are always willing to help you and the staff is kind and knowledgeable. Appointments are easy to get a day or evenings. Both my husband and I have been feeling better since we started. The doctors are knowledgeable of medicine and creams that can be used at home in between visits too!

Anita Dickson

Cranberry Lake, NJ

Before coming to Village Family Clinic I was in constant pain. My back was tight, I had migraines, and I even had numbness in my feet from a pinched nerve! The team here made me feel better from day one. The staff was so helpful and the doctors are very knowledgeable that, together, we made a plan to get me feeling better. **After only two months all my pain was gone.** Now I keep going to stay healthy and even just to see them. Nice people that have become my friends! At Village Family Clinic you will be treated as a member of their family! If you are having pain, Do It! I have told my entire family and my friends and after only two months they are hooked and wonder how they have gone without chiropractic care for this long! At Village Family Clinic the staff really cares for YOU, not only do they allow you to walk in if you are in pain, they get to know you on a personal level.

Jessica Severns

Great Meadows, NJ

Being pain free is a miracle, to think one treatment relieved me of pain that I had for one month, I believe in chiropractic and the miracle this was, I will never forget. It has improved my life and made me feel healthy again! I recommend faithfully the medicine that was used on me. I came in in severe shoulder and neck pain and to my surprise I left the office with no pain! I have been pain free for over three weeks. I would call this my miracle treatment! This is a miracle pain free practice.

Teresa Dolce

Hackettstown, NJ

Two main problems brought me to the decision to go to a Chiropractor: Chronic pain and the use of pain medication to deal with daily pain. I signed up for ten visits, which I used over the course of two months. **I started feeling better almost immediately. After every adjustment the pressure and pain in my neck diminished. And so did my need for the pain mediation!** The doctors and the staff are extremely friendly and appointments are easy to make send well-coordinated. I have never waited more than a few moments to get an adjustment. Office is clean, organized, and well explained!

Paula Ellis

Hackettstown, NJ

In June 2015, I had a solo motorcycle accident and experienced knee pain. No broken bones or abrasions as a result due to being adequately geared up. I went to Dr. Fedich one week later, also experiencing low back pain. I went for an evaluation and treatment, and I am glad I did! The team has a wonderful staff and the atmosphere is very inviting. Dr. Fedich gave me Cold Laser on my knee which quickly helped me with the inflammation. In addition, chiropractic care provided incremental improving results in pain reduction in my lower back. I recommend this practice to everyone in the area! Of course there are times when surgery may be required. However, why should or why would anyone ever perform surgery without considering an alternative approach which is non-intrusive? Chiropractic is worth seeking before last case scenario.

Lawrence Paulauskas

Hackettstown, NJ

Chiropractic care has improved my life by making me feel like my old self again! To feel better, the staff has been very helpful, always ensuring me of all my worries. The doctors are very compassionate and always listen to me. Since I have discovered acupuncture, my issues are getting better.

Vera Koehler

Hackettstown, NJ

I have had Chiropractic treatment since a serious fall/accident in 1983. Regular appointments have helped me maintain health. Dr. Fedich and his crew have been flexible and relaxed throughout my whole treatment. I have been in his care for ten years! **The office is a ‘can do’ atmosphere wanting to help what ails you! The variety of treatments far exceed the limits of Chiropractic care, I have had Acupuncture, laser, spinal decompression, massage etc. all at one office!**

Victoria Goer

Hackettstown, NJ

Before coming to Village Family Clinic I had trouble getting out of bed. I also found it very hard to walk. I have spinal stenosis and slipped disc. Dr. Fedich gave me Spinal Decompression and adjustments. Now I can walk with no pain and get in and out of bed with no pain. I can now function like before; I still get adjusted from

time to time. The Doctors and staff are fantastic and very helpful! **Chiropractic is safe and natural. I owe my life to Dr. Fedich, without him I would be crippled!**

Randal Randazzo

Hackettstown, NJ

I have had back issues since a car accident in 1974. In the past, I have missed work and taken medication due to my back acting up. Now, I stop in when I feel my back starting to ache. I am able to continue my daily routine with no time missed from work. Rather than taking pain mediation I can return to work without missing time. All the while interacting with a friendly, helpful staff. I think the staff at this facility is top-notch! have told my friends and family how pleased I am with chiropractic care. From friendly greeting to concerns about my well-being, this is a warm, welcoming environment.

John White

Hackettstown, NJ

My back has improved a lot. If anyone has problems with their back, you should call and make an appointment. I'm pleased how pleasant the workers are.

Clarence Stang

Allamuchy, NJ

Chiropractic has not only improved my life; it has literally given my life back to me! One Sunday, I could not stand straight or even move one leg in front of the other. Even being in excellent physical health and having achieved amazing feats of stamina and exercise regimens, the years of lower back injury and abuse had taken its toll. Having never tried chiropractic care but knowing many people who attribute their healthy lifestyles to it, I made my first appointment. After only two visits I felt so much better and able to manipulate and ambulate after two and a half months, I am able to tolerate a ten-hour car ride without enduring stress! How's that for improving my life! The surrounding is pleasant, clean, spacious, and comfortable. The staff and doctors are a pleasure to know and work with. The amenities offered like fresh fruit and the coffee machine that satisfies my soul and energies as needed. The element of surprise is enticing. The turkey giveaways at thanksgiving, the gift assortment sent to the house makes for a sense of adventure.

Carole DeMartino

Hackettstown, NJ

I have been seeing Dr. Fedich for about six years now, at first because I had lower back pain. I had never been to a Chiropractor before, but I was in such bad shape, I could barely walk that I would try anything! After a few visits, I felt better and kept coming until I was back to new! Since I've been back for another incident and also for a shoulder issue. This past year, physical therapy appointments have also helped me with my shoulder and back. In this process I have learned how to bend, lift, and stay healthy by coming for maintenance visits once a month. I have had a happy stay and you should not be afraid. For those patients that need medical doctors, Dr. Fedich wouldn't hesitate to refer you to doctor that would help you most. I am pleased with everything. Also the consistency of the adjustments and the doctoring when physical therapy was warranted. Also, If I have a new problem Dr. Fedich addresses it very quickly. On top of the processing health benefits, the staff is friendly and welcoming. I also really like the fact that Dr. Fedich and staff are very community active and support many fund raisers throughout the year.

Jill DeMonti

Hackettstown, NJ

I am 58 and pre diabetic. I needed to exercise a lot more, when I enhanced an exercise frequently and intensity, i suffered from lower back pain that kept me up at night and required medication to sleep. After just a few chiropractic treatments, I was able to start working out five to six time a week with no more need fir medication and it also allowed me to get better the required sleep. The doctor evaluated my condition and accurately executed a plan to relive the imbalances present at the start of my treatment. We take for granted the parts of our bodies that support us and carry us around. We don't look in the mirror to check our posture. Yet, left unchecked, small posture and alignment problems could start up a big problem. Chiropractic can be the counter weighing check against the daily insults of our modern life. The doctor's evaluation and careful explanation of the treatment plan has relieved me of pain quickly allowing me to go back to stabilization treatment faster than I expected. I put my body through a lot: splitting wood, golf, treadmill, etc. and know I will have some protection now from major injury due to chiropractic. I love the fresh ground coffee in the waiting room, but the waits are so short I barely have time to make it!

Roman Gural

Columbia, NJ

It is very rare that I find a specific doctor that I stick with. I don't like when I walk into an office and the doctor treats me like a chore. For the first time in a long time, when I walk into Village Family Clinic I don't feel like I am walking into a doctor's office. I am instantly greeted with smiles. Every woman behind the front desk seems so ready to help everyone that walks through that door. Jess R and Alyssa are the two that helped me the most. I can honestly say I have not meet friendlier ladies. The spinal decompression I do is not very comfortable, but both woman are by my side in case I feel and discomfort. I am trusted like a friend instead of a patient. It feels like I have known everyone do much longer than I have. That being said because of the way I am treated; I find myself wanting to come back. The consistency I am able to maintain coming three times a week has greatly improved my daily life. I am still not one hundred percent but Dr. Fedich wrong stop until I find some sort of relieve. I could not have been treated by a better guy. I have been adjusted by many other Chiropractors before, but non like this! Dr. Fedich has some magic hands! Instead of leaving in pain, I walk out refreshed and feeling like I can do back flips again! My back pain back pain has always scared me, causing me to not treat it out of fear in making in worse. Here, all the fear is gone! The kindness of everyone reassures me that I could not be in better hands; I may never leave. I have literally told everyone who will listen how much I love coming to Village Family Clinic. They have so much to offer. Dr. Fedich and his team are at the very top of my recommendations list. With the risk of sounding mushy, the kindness I have received

here is most pleasing. The reason being, I am a very anxious person and I hold a lot of tension in my body. The fact that everyone here makes me feel so relaxed and stress free, I feel like every treatment become more successful. I am relaxed enough to let the treatment time its course. I seriously love coming here, and never have said that about another doctor having to go three times a week. It's an hour vacation from all other stresses going on. Such a wonderful team, everyone should be proud to be a part of it!

Maria D'Albis

Flanders, NJ

Chiropractic has improved my ability to do the things that involve physical activities that were difficult previously. It has made me a happier person and more pleasant to be around. I would tell my friends and family to try chiropractic care! You will be amazed at how effective it is in daily life. You will have a better, more positive outlook on life. The improvement in my back and how I feel is what pleased me most. It is easier to exercise and easier to do daily tasks, I no longer dread having to lift or move something. It makes you feel good about yourself.

Gary Hills

Hackettstown, NJ

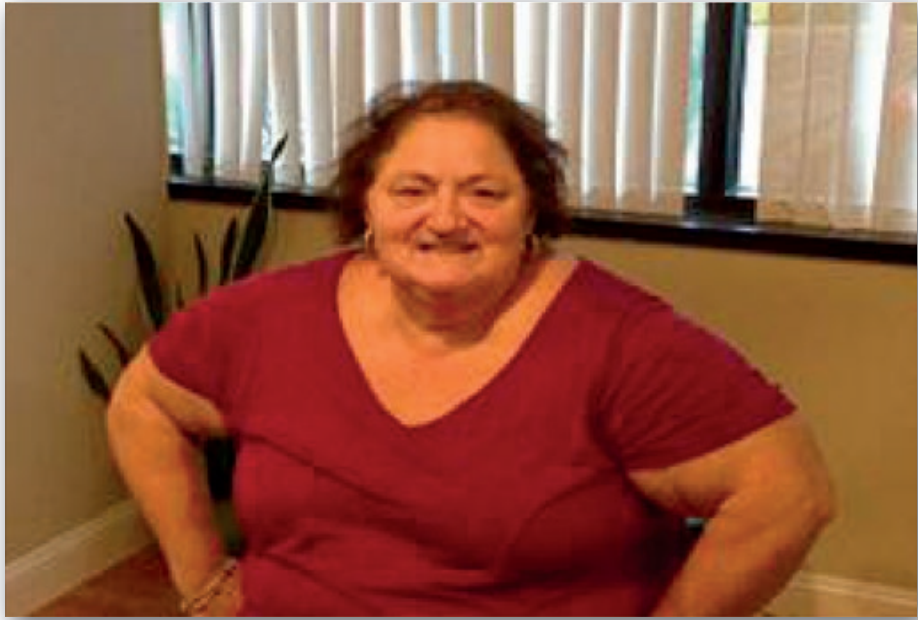

Chiropractic has improved my life physically, mentally, and emotionally. My posture and well-being as well as my flexibility and strength has increased. Mentally and emotionally I feel better after an adjustment. Thanks to Dr. Fedich and his staff for helping my life become better. It will help you with your pain and being healthy. His adjustments are natural and not forceful. He works and listens to your body. He doesn't do things that are not needed.

Kim Ligarzewski

Hackettstown, NJ

Chiropractic care has improved my life with every time I am adjusted. Being a retail manager in a retailing store, I'm always on my feet doing a lot of lifting. When it comes to Dr. Fedich has helped me do my job better and without hurting. I tell everyone Dr. Fedich is a very good Doctor, he has always made me feel better. I'm most pleased with their flexibility. You don't need an appointment to the doctor, no waiting. They have all the new machines and know all the new treatments to make

you feel better. The doctors and staff are very caring, pleasing and friendly to all. The office is always clean and thus a pleasant environment, with great hours. I love coming to the clinic

Maria Slupicki

Newton, NJ

The care has made a huge impact on my daily life. Simple tasks such as grocery shopping, laundry or carrying heavier objects, which often included pain, has gotten a lot better since I've begun treatment. The sleep and the quality of my sleep has helped me stay alert and more energized throughout the day. I would highly recommend it. I was skeptical at first. I wondered how much of a difference it could possibly make. The difference is more and more noticeable every time i try something. Softball maybe in my near future thanks to the improvements in my lower back. The environment is friendly, and easy to setup appointments.

Kevin Perez

Hackettstown, NJ

I feel relived back pain due to a herniated disc. Every visit has shown improvement, the staff is excellent, and appointments are always on time. I would tell my friends and family that it really does work. I feel better after every decompression.

Alfonso Porfido

Dover, NJ

Had chronic back pain because of a knee revision i had in November 2015. I had to be reemitted in the hospital due to an infection in my knee. I felt my knees weren't helping me walking correctly, causing my lower back pain. My daughter who is currently a patient convinced me to try this facility. Very good advice; very comfortable atmosphere, excellent staff and doctors, and equipment is new. Treatment on the equipment has helped. Chiropractic is definitely the way to go.

Michael Piazzola

Belvidere, NJ

It's increased my mobility and helped reduce my sciatic pain. They have very helpful procedures, pleasant atmosphere. Very friendly group of practitioners.

Leon Komsa

Hackettstown, NJ

Chiropractic care has given me my life back to me! I have had an auto-immune disease and because of this I have experienced life changing abilities. I've tried many different types of treatments and noticed nothing was working, until I had my first visit to Village Family Clinic. Village Family Clinic treated whole me and their practice offers newest types of chiropractic care, and it works. The staff is friendly and welcoming as well. Village Family offers the best care in a warm relaxing environment; physically and mentally it's the place for healing. I would tell my family and friends to come to the Village Family Clinic. All the chiropractic care has pleased me in my course of treatments. If I had to choose one treatment I would say the acupuncture specifically for my case is really enables me to live a normal life. Thank you Village Family Clinic for doing what you do best. The entire building is filled with caring people and great service.

Maria Langella-Sorgie

Hackettstown, NJ

Chiropractic care has helped me immensely. Especially with my headaches. Getting adjusted every week has improved my life. I would definitely recommend Village Family Clinic. I am constantly telling my family and friends how I has changed me for the better and how friendly the staff is with me and my family. **The cervical decompression has really helped with me headaches.** It has been a major improvement. Dr. Fedich and staff makes us feel like family. In my eyes their number one.

Mercedes C. Cosme

Hackettstown, NJ

There's less sharp pain, relaxed muscles and knowledge about my stenosis condition. To family and friends, I would say try it, you'll like it. The therapist and other personal are friendly and compassionate, friendly atmosphere, willingness to explain various situations concerning my condition.

Eva Swedlund

Hackettstown, NJ

I have less low back pain with more flexibility! The staff is absolutely great! It works! Give Village Family Clinic a shot!

Frank Godino

Hackettstown, NJ

It has relieved most of my discomfort and annoying pain from standing and walking. This was keeping me from doing everyday normal things that i liked to do, or hated to do. Don't hesitate to try. The friendly people who are here to help and assist make it an easy treatment, enjoyable, easy to work out schedule.

Joseph Pollio

Stanhope, NJ

Between the massages that Ashley does and the Doctor adjusted me, I really do feel so much better. My back was extremely tight (back surgery) and Ashley helped improve my movement. She is absolutely the best massage therapist and really makes me feel like a new person. Dr. Jerry adjust my back and she's does my hips and now **I don't have a limp any more.** He really is great adjusting me and I feel much better and so much relief. I would suggest my family and friends to go. It would make them feel better and keep them in a better place. You feel more alive afterword. Since my back surgery Aug 2013 my hips are back in place

and i feel 100% because of Jerry. Ashley takes care of my knots and helps with my circulation and loosens my back and neck. It's wonderful, I can sleep better now. Dr. Fedich and Dr. Jerry and all the girls in this office are absolutely the best. The thing I like most of all you don't feel like a number, you feel like a person/patient, they all help in any way. I am pain free because of Village Family Clinic.

Lisa Applegate

Hackettstown, NJ

My neck and shoulder pain have been relieved and the neck pain is completely gone! I also have lower back pain right around the belt line that has also been relieved by chiropractic adjustments and stretching. When I have had chiropractic adjustments prior to Dr. Fedich, I always dreaded it when my neck was adjusted. Now when Dr. Fedich adjusts my neck I don't even notice he is doing it because it is so effective and very gentle. My sense of balance and walking stride have improved with suggested exercise therapy. I would recommend Village Family Clinic to any of my loved ones with pain. The effectiveness without having to resort to more drastic measures. I also appreciate the friendliness of the staff. Everyone in the office is so caring and very pleasant. They all treat patients as a loving family. They always remember my name. I am so happy I found Village Family Clinic!

Barbara Trillich

Port Murray, NJ

I have recently have had a serious problem with severe sciatica pain It was so painful, it was very hard for me to get around. After I've came here to Village Family Clinic and had a couple treatments on the decompression machine, I come a couple of times a week and it gets better and better every time. I really appreciate the way I am treated at the office. They treat patients like a part of the family, I am very pleased with the office and staff.

Charles Trillich

Port Murray, NJ

I have started seeing Dr. Fedich about six months ago. I am a fireman at Allamuchy Fire Department and many of my firemen come to Village Family Clinic, along with half the town so I decided to give it a shot. I was previously going to a Chiropractor in East Hanover who was really very good but I felt like things started to get stagnate and before I went back to medical issues I wanted to get a second opinion. I'm glad I gave Dr. Fedich a shot, once I came in he has done some amazing stuff for me. **He actual found a problem in my jaw I never knew about, since he started adjusting it I noticed a difference and it has started to feel better.** With adjustments and physical therapy it is going to take me to my next step. Dr. Fedich and the staff at Village Family Clinic are very pleasant and I would recommend them to all my friends and family, they have been wonderful for me!

Rick Lomonaco,
Allamuchy Fire Chief

Allamuchy, NJ

I came to Village Family Clinic because I was having back pain and the office staff was the best, the doctors here are really great and in tune with what my needs are. **They addressed my problem and I have a great program now!**

Jesse Pach

North, NJ

I have been coming to Village Family Clinic for about 2 years now, **I have had substantial pain in my neck and my shoulders and Dr. Fedich has been able to help with. I have also had trouble with my knees and Dr. Fedich was also able to relieve the pain for me!** It is a great place to come!

Allison Blandford

Hackettstown, NJ

I was complaining about back pain for several weeks and I finally decided to visit Dr. Fedich. I have been coming to Village Family Clinic for a few weeks now and I am very happy I tried it! **Within two weeks I have noticed a huge difference!** The office staff is really friendly and courteous, you should really come and try it.

Patient and Village Family Clinic Northern NJ

I have been coming to Village Family Clinic for a few months now, **I have been receiving my chiropractic treatments along with massage and it has made me feel wonderful.** You have to try Village Family Clinic! You will like it!

Joan Crouse

Hackettstown, NJ

I have been coming to Village Family Clinic for just about a month now and it has really been helping me. **I have had five sessions on the spinal decompression machine and it has helped me with my pinched nerve pain. I am loving it here so far!** The staff here is very helpful and cheerful. They are always accommodating and if you have any questions they always tell you in a way you can understand, the doctors here are the absolute best! He is helping me a lot with my pain and I love the massage therapy. **My husband and I both have**

been asking advantage of that and we look forward into continued sessions. It has help us both with our overall physical health.

Ramya Edula

Hackettstown, NJ

~

I have been coming to Village Family Clinic for a couple months now and Dr. Fedich has helped me with a lot. **Every time I get adjusted I always feel better and refreshed.**

Payton Ernst

Hackettstown, NJ

Dr. Fedich introduced me to the Spinal Decompression machine about a month ago. **I was having some trouble with low back pain and my glutes on a daily basis, I went to two different chiropractors in two different places, I have visited two orthopedist and had two epidurals in July and I stopped in Village Family Clinic and here I am about five weeks in and well on**

my way to getting better. The staff is wonderful and I thank god every day that Dr. Fedich showed me this wonderful machine.

Marc Gross

Blairstown, NJ

I noticed a difference after the first treatment on the Decompression table. After the third treatment I got the feeling back in my legs and back. Now I can stand and walk around, before I could not do that, I was all over the place because I was so weak. This is a wonderful machine and it has helped me so much. The other night I was crying because I thought I was going to be a wheel chair case, thank god for Village Family Clinic.

OK Comazzi

Budd Lake, NJ

I have been coming to Dr. Fedich for a little bit over three years now, I have to tell you he is an amazing doctor. He spends time with you, He is concerned about you and he honestly wants to make you feel great. I have had times in the winter where I overdo it and push myself to do more than my body should. **There are time I hobble into the office and at the end of the day I can move and jump around, I feel ten years younger sometimes!** I have been

to several different chiropractors and I have to tell you Dr. Fedich is the best! If you really want a great experience, come see Dr. Fedich and staff!

Dan Pineoir

Succasunna, NJ

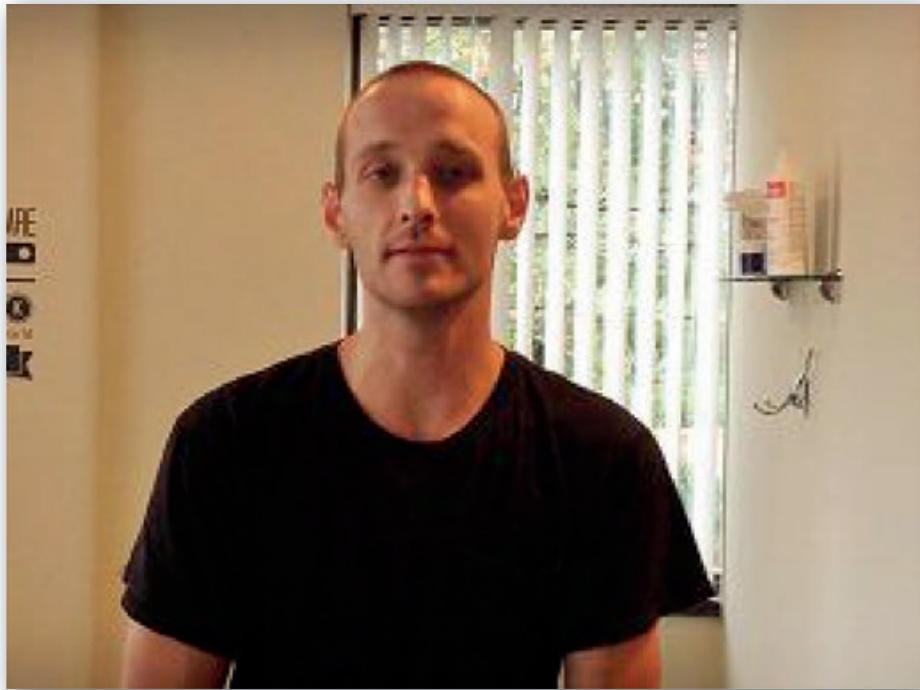

I have been coming to Dr. Fedich for a year and he's the best!

Chris Black

Northern NJ

I have been a patient of Dr. Fedich for four years now and I choose to continue to come here because he has always treated me well. He makes me feel like a patient that is cared about, someone that is important and not just another number. **I have chronic low back pain due to some discs in my back and when everyone else gave up and said the only option was to cut open Dr. Fedich helped me manage it and be able to live my daily life!**

Brent Howell

Hackettstown, NJ

I have been coming to Dr. Fedich for a couple months now to relieve stress and tension in my neck and he is doing a GREAT JOB!

Colleen Howell

Hackettstown, NJ

I have suffered with back pain for over two years because of abdominal surgery. Ever since coming to Dr. Fedich and his staff it has been wonderful. They have relieved me of my pain and gave me back quality of life. I have been able to sleep through the night so i have been truly thankful for their guidance and helpfulness.

Regina Evans

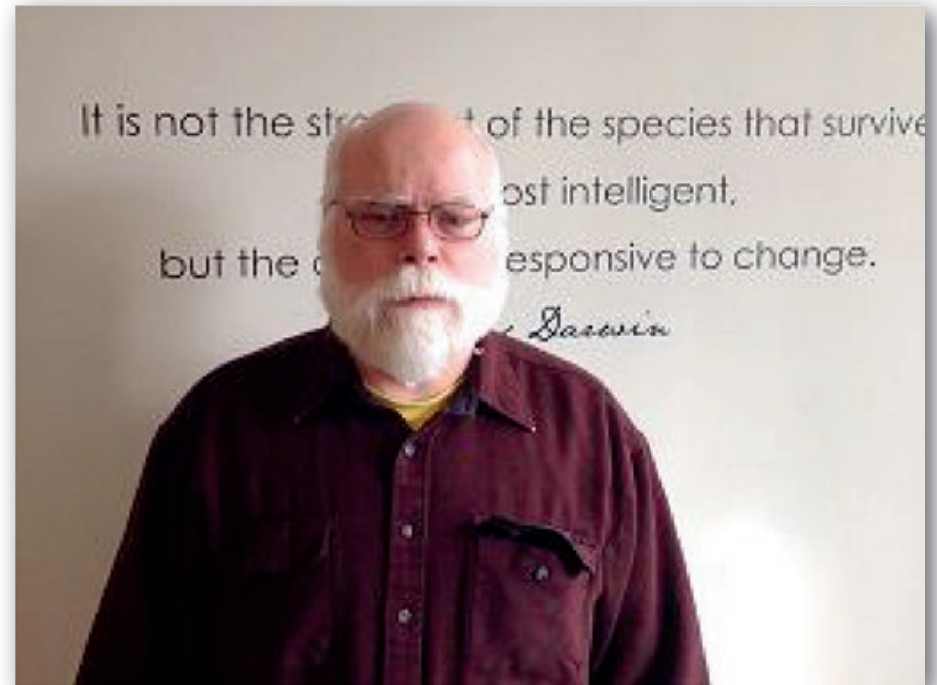

Hackettstown, NJ

I have been coming to see Dr. Fedich for quite a while. I have given up on chiropractic for the past year because I was unsuccessful with other chiropractors. I have been going to the chiropractors for over thirty years so I think I have some pretty good judgment of them! After seeing Dr. Fedich he was able to get me up and moving in a very short time and I have been coming to him ever since, It is a wonder environment. The staff is great and so is he!

Pat Gardiner

Northern, NJ

I've been a patient with Dr. Fedich for about a year now. **I originally started coming here with tremendous low back pain and it was hard to walk. Since I have started coming here I have straightened out and I feel much better.** The staff is wonderful and it is very comfortable office. If you have any back pain come see Dr. Fedich, Village Family Clinic is the place to go!

John Dotterwich

Great Meadows, NJ

I cannot say enough about Dr. Fedich and his staff. They have helped me in ways that I cannot even explain! I have been coming here for eight to ten years now and would highly recommend Village Family Clinic if you have any pain!

Colleen Bailey

Hackettstown, NJ

Dr. Jim and his staff are just amazing! If it wasn't for him I would not be able to get up in the morning and stand up straight and just function during the day. I am on the go twenty four seven and without coming to Village Family Clinic I would not get everything done that I need to get done.

Patient at Village Family Clinic

Northern NJ

Dr. Fedich is a great doctor. He explains all the procedures to his patients. He understands everyone's needs and schedules are different. He is a very smart guy. **The office is up to date on the latest technology. Defiantly give them a chance!**

Patient at Village Family Clinic

Northern NJ

I have been coming to Village Family Clinic for headaches and it has really helped!

Patient at Village Family Clinic

Northern NJ

I have been coming here for a year and a half and **I have been very pleased that the adjustments that the doctor has provided for me. Having relieved pain in my hip, shoulder, and my back!** As a result of a friend recommending him I came and my daughter has in turn come in my recommendation. The office staff is very professional and I have always been very pleased with my visits here.

Louelle Hofgesang

Northern, NJ

I have been coming to Dr. Fedich for about eight years and every time I have a problem I can count on him to make me feel better. He is very gentle, kind, and professional. When I come I don't even have to make an appointment and he is always ready to take care of me.

Elmira Charters

Hackettstown, NJ

I have been coming to Village Family Clinic for about two months now and I love it here! It is a friendly office, the girls and the guys are awesome! It's a beautiful energy, it's been really nice. They have helped me so much my back is amazing. **I have gone from chronic awful back pain to being able to function and be able to take care of my kids. It has been a blessing!** It's very easy to get to and I just love it here!

Kelly

Northern NJ

I have been a patient at Village Family Clinic for about two months now and I have noticed a big difference. **The appointments are easy to make, the staff is great, and I feel a lot better.**

Joseph Roberts

Northern NJ

I have had extreme low back pain for the last five years. I have went to other chiropractors in the past and I decided to give Village Family Clinic a shot and **I have been coming for about three weeks and the difference is incredible.** It is easy to make an appointment and **they have made me a patient for life!**

Nick Colson

Hackettstown, NJ

I had sciatica problems for about 7 years, and severe sinus problems for 2 years. I never saw any other doctors; I just suffered through it. Positive results became apparent after my second or third chiropractic visit. I felt like a weight was lifted off my shoulders right after my first visit.

Dawn E. Qwirk

Hackettstown, NJ

When I first came to your office I was apprehensive about if you would be able to help me, where all of my other doctors had failed. To my amazement, you were the doctor I had been waiting for to end my suffering. I have had terrible pains in my upper thighs over the past year. My primary care physician said to lose weight and I would feel better. I lost the weight and nothing happened. **One of the best decisions I have ever made was walking into your office. You treated me as an individual, you were thorough, and did not force me into treatments. You gave me back my life and pain free days.** I look forward to finishing my treatments with you, and would recommend your practice to anyone.

Michael Gantz

Belvidere, NJ

I came into your office unable to stand upright or walk more than fifty feet without terrible pain in both my right leg and back. I faithfully came to your office three times a week and showed improvement after each visit. After six weeks of chiropractic care, I am well on the road to recovery. **The sciatica pain has disappeared and my lower back is feeling stronger every day.** I was disappointed that my family doctor offered nothing but pain medication, but your proactive approach obviously worked. I want to thank you and your staff for working with me and improving my back condition.

Richard Yocum

Hackettstown, NJ

I suffered from cramps, cold symptoms and joint aches. The cramps and cold symptoms stopped after receiving chiropractic adjustments. **As for the Arthritis- there is less need for medication with continued chiropractic care.** I am in good condition for a woman of 80 years.

Eloise Mial

Hackettstown, NJ

I had knee, leg, and foot pain for about three months. After approximately 3 weeks of treatment from Dr. Fedich, I was able to do my daily walks, more gardening, and am not bothered at night with pain.

Milsie Carpenter

Hackettstown, NJ

Lower back pain was my problem. I could not bend down without experiencing severe pain. After two weeks of coming to your office, the pain was alleviated. This was my first experience with chiropractic. I am convinced that it works.

Dr. Ben Adams

Panther Valley, NJ

I experienced heal pain for a year, and my lower arm had begun to hurt for two months. I was unable to walk to do my normal chores or to raise my arm for normal lifting. After a month I began to feel better. **After just a few months, I am able to walk without pain and have no pain in my arm.** Dr. Fedich is very caring and that, in itself; makes you feel better.

Grace J. Clegg

Andover, NJ

I had problems with my neck that prevented me from being able to participate in school sports. **After just two weeks, I noticed results. Dr. Fedich helped me quickly and painless!**

Michael Soares

Hackettstown, NJ

I want to express my gratitude for helping my daughter, Beth, feel a lot better. She had constant lower back, shoulder, and neck pain, but was not eager to start her sessions since we all are not happy to see physicians. Her fear just melted away because of your pleasant approach and your calming personality. **She noticed less pain after her FIRST Visit.** She is now coming on a weekly basis to maintain her much improved condition.

Paul Goldeberg

Allamuchy, NJ

I can't thank you enough for your treatment of my ailing right shoulder. I had very restricted mobility of my right arm, following a snowboarding accident. Whatever movement I did have was accompanied by chronic pain. Under your expert care, however, I now have full use of my arm and shoulder. I'm lifting weights again, playing weekend softball, and have even been able to start my swimming workouts in preparation for a triathlon this summer. I am a very satisfied and grateful patient. I'm now a true believer in the power of chiropractic care.

Kenneth D. Inadomi

Allamuchy, NJ

I had chronic lower back pain, leg pain, and headaches for 4 years. I had seen 5 doctors, took many medications, and was on disability for a year and a half. After approximately 3 weeks of chiropractic treatments, the headaches and leg pain were gone. Although the lower back pain still comes once in a while, it has subsided a considerable amount.

Steven Leonardo

Allamuchy, NJ

My six-year-old son Christopher was diagnosed with asthma. He was prescribed Singular, Albuterol, Flovent and a rescue inhaler. **Christopher was missing five days a month of school. Christopher began his chiropractic care... since then he has progressed unbelievably, in April he didn't need any medications.** Dr. Fedich is wonderful with Chiropractor...the staff has always been very friendly and helpful!

Chris, Greg, Catherine Biancone

Green, NJ

MANIPULATION UNDER SEDATION

“I had pain in my lower back through my hips and down the top of my thighs. I had lost range of motion bending from the hips and twisting from side to side. I had these problems for over a year. I saw an orthopedic sports doctor, pain management, and would take ibuprofen daily. The pain and loss of range of motion greatly affected my ability to dance and demonstrate dance classes. After my MUA in February 2009, my range of motion came back immediately and the pain in my hips and upper thighs was gone by the last day! Chiropractic care enables me to continue to dance effectively”

Pat Lanciano

Byram, NJ

I just wanted to say a quick THANK YOU to Dr. Fedich and his staff! We love coming here and the girls ask about my daughters all the time, **there would be no one else I trusted with and kind of sports injury.** They have helped not only my daughters but also my husband and myself with any problems we ever have and I really appreciate all their help!

Claudia Ernst

Hackettstown, NJ

I have been coming to Village Family Clinic for a little bit now, and I have already started to feel better! I have been going on the Triton for spinal decompression and the machine has really been doing well for me, I am not a hundred percent yet but I am close to it and I am confident in getting there. All the girls here are wonderful and I can get in whenever I need to see the doctor. I really like this office a lot!

Ellie Corda

Hackettstown, NJ

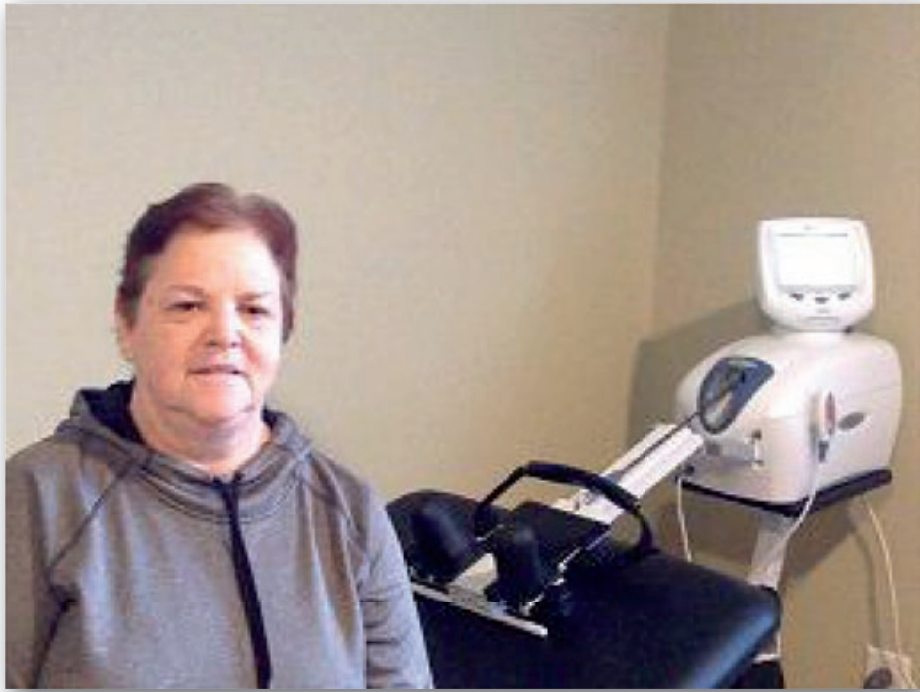

totally eliminate that. I have not had the need to take the medication, I am working towards a maintenance program and I have been feeling really good!

Gayle Borovian

Northern, NJ

~

I have been coming to Village Family Clinic for about two months. I started out on the Triton decompression machine, which is FANTASTIC! Prior to this treatment I have gone to Physical Therapy for about two months. I was having a lot of problems with my lower back and my left hip. Even after the continued Physical Therapy plan I was in pain. After just three treatments on the Triton I felt appreciatively better! Just after a total of six treatments I was able to come off of a prescription Anti- Inflammatory that I was on! I was grateful to

I have been a patient of Dr. Fedich for twelve years. I have tried to come as often as I can. Cervical traction has truly helped my neck! It gives me great comfort, after the treatment I literally have minimal pain and less headaches. I can tell when I have missed a couple treatments but once I come back in I get continued immediate relief!

Cathy Cowie

Northern, NJ

I am speaking on behalf of Dr. Fedich's Clinic and the Triton traction machine. I was in chronic pain as a professional touring and recording musician. I use my hands all the time and lost feeling in my hands and fingers, compromising my forearms as well. After spending some time on the cervical traction machine as well as getting adjustments I have noticed a remarkable improvement in my range of motion as well as less chronic pain. It has been a very good experience for me thus far. Everyone in

the office is terrific, it is very east to make appointments all the procedures are generally seamless. It is absolutely an experience I would recommend!

Steve Ratchen

Northern, NJ

I came to Village Family Clinic a few weeks ago with a lot of pain in my knees, hips, shoulder, and neck. After just a few treatments I have noticed a huge difference in all the different parts of my body. I have been very pleased with Dr. Fedich and his team! It is very easy to make an appointment and the adjustments are working really well for me. I really. Really recommend this office to everyone!

Renee Bolduc

Hackettstown, NJ

I'm out which is very good for me because I have waited over hours in different chiropractors care. You need to visit! They will make you feel tremendously better!

Juanita Petty

Hackettstown, NJ

~

I have been coming to Village Family Chiropractic for just a few months now for lower back pain and I must say I am feeling tremendously better! It did not take long for me to feel the result of the adjustment. I have also incorporated acupuncture which has been great for me. The staff is great; they are very prompt. I have never waited more than three minutes for my appointment, I'm in and

appreciate all that the Doctor had done for me. The staff makes you feel very welcome and I would say to anyone that has back pain to come in and try it!

Karen Barnes

Hackettstown, NJ

~

I have been a patient here and Village Family Clinic for about a month now and it has done wonders for my back! I was always in pain, couldn't turn at night without hurting and now I notice a little more every day that I am pretty much pain free. Daily tasks like getting out of the car; I never used to be able to just get out of the car and start walking around and now I do it pain free! I really

I have been coming to Dr. Fedich for a couple years now and there has never been a time where I didn't leave here feeling better! The decompression and adjustments have helped me a lot. He truly knows how to help people. The girls are great. They are both pretty and know what they are doing. I would recommend Village Family Clinic to everyone and I think

they will feel better. People with a bad conception of Chiropractic and medicine would absolutely change their mind if they came here!

Russle Ebbelherr

Hackettstown, NJ

~

I have been coming to Village Family Clinic for two weeks now, I have got to say I have been seeing great results! I have been feeling ten times better from when I started! I have a pinched nerve in my lower back that was painful, I have a few more sessions and I hope that the pain will go away completely. I have to thank Dr. Fedich, he defiantly helped me!

Daniel Lopate

Hackettstown, NJ

My name is Nick, I have come to Village Family Clinic because I have tried all the other means of getting pain relief for my back and knee. I have previously gone to an Orthopedist and underwent a Physical Therapy program and was disappointed when neither worked. After coming to Village Family Clinic I started to feel much better. I went on the Spinal Decompression machine, electric stimulation, and adjustments. I find that the staff here is very friendly and I feel very comfortable.

Nick Scalera

Hackettstown NJ

Chiropractic care has helped me enjoy life pain free. With both a spiral condition, and an occupation that involves sitting for most of the day, it's not hard to get bent out of shape. A simple adjustment does wonders for getting me back on track. To someone who is curious about Chiropractic care, I would tell them it is important to find someone that you feel comfortable with. Don't be afraid to try out a few different doctors before picking one. I feel comfortable with the doctors at Village Family Clinic because they've taken the time to get to know me and answer my questions to always make sure that I'm comfortable. I encourage everyone to at least give Chiropractic Care a chance because it can be life changing. **I came to see Dr. Fedich after I had been in an accident and was awaiting surgery. He answered a lot of questions that other doctors had ignored, helped to ease a majority of my fears and did what he could to manage my pain and make me feel comfortable.** He has continued this great practice ever since and I couldn't imagine going anywhere else.

Thank you for always being true to me and my cooked spine!

Sarah Kapitho

Blairstown, NJ

Chiropractic care has improved my life by increasing my flexibility with a lot less pain. I am able to play and participate in activities with my grandchildren and friends. I can sleep easier with less irritability. I also have better disposition with everyday life. I would recommend Chiropractic care to all my friends and family, telling them that it has helped me resume to "normal" activities and participate in life with a greater ease and enthusiasm. At Village Family Clinic visits have been thorough, timeless, and very easy to schedule appointments. The staff is also very friendly!

Brenda Lightcap

Hackettstown, NJ

Chiropractic at Village Family Clinic has helped me to walk without having any pain! They have taught me how to properly stretch on the days I am not able to come in to help my body heal quicker. I would tell me friends and family to TRY IT! You can only gain from going and getting the help you need! What pleased me most about the office is the caring staff, Knowledgeable Doctors, and their concern for our time. I have never had to wait for an appointment! I want to tell everyone at Village Family Clinic a big THANKYOU for making me feel better!!

Sandra Bimbi

Hackettstown, NJ

Because of the Doctors and Staff at Village Family I have no more headaches! I'm no longer hesitant to turn my head because of my neck pain has lessened considerably. I would tell my friends and family with back or neck pain that they need to try it! Chiropractic care defiantly helps! The staff is caring and friendly. Dr. Kaminsky's care and information has pleased me during my treatment plan.

Carol Lou Doherty

Hackettstown, NJ

My life has improved through Chiropractic by having much less pain! I am able to accomplish more and feel less self-conscious in my ability to move quicker. What pleased me most about the practice was my removal of pain. The contact with staff was always something to look forward to, they were all very knowledgeable, friendly, and professional. As compared to my experiences with the medical offices, Village Family Clinic is upbeat and relaxed.

Jane Smakowitz

Hackettstown, NJ

At age 85, I thought I would have this pain in my back for the rest of my life. Since being treated at Village Family Clinic I feel a lot better and my pain has subsided. The staff is just great and the treatment aids in my condition.

Eleanor Sorensen

Hackettstown, NJ

Chiropractic has alleviated my severe sciatica as well as almost relieved a long term pain in my left lower leg – which has allowed me to postpone varicose vein ablation surgery! I would absolutely recommend Chiropractic treatment to anyone in pain. The initial three treatments I received allowed me to go on a two week trip to Ireland and take part in long hikes over rough terrain; which pretreatment would have been impossible!

Joe Finnegan

Hackettstown, NJ

Chiropractic care has given me pain relief and better mobility. Ongoing treatment has resulted in a better quality of life physically. **I prefer chiropractic over pain medicine.** I would tell my friends and family to try it! The office is very convenient, easy to make appointments, and there is never a wait time. I will refer anyone that I speak with who is interested in alternative pain management.

Bernard Redmond

Blairstown, NJ

Dr. Fedich has helped me find relief when pain keeps me from the life I enjoy. When you are in pain it can become your focus. Chiropractic can restore this balance. I recommend to explore the possibilities! Chiro care is not just for back pain. Any source of pain in your life? Consider Chiropractic, it could help! Dr. Fedich and his staff “get it”. They make you feel like they truly understand what you are going through and you know they want to help.

Joanne Ferguson

Hackettstown, NJ

When I first came in I could not hardly walk my back pain was so severe. **Since I have been coming I can now walk with little pain at all!** If I meet someone with any kind of back pain U would tell them to see a Chiropractor. Having not to take medication is wonderful, and makes your body feel alive again! The Doctors are wonderful. Showing me the reason for my back pain, and actually full fill what was promised in treatment. Also the staff is friendly and very patient. I would recommend this practice to any of my friends and coworkers.

Jolene Bethune

Hackettstown, NJ

I came to Village Family Clinic for decompression for my neck and adjustments for my back and it immediately felt better! The atmosphere in the office is very friendly and they know what they are doing. Everyone should come to this office, they are very friendly. Especially my friend Jessica. Everyone is very friendly at this Clinic.

Mariana Aparicio

Hackettstown, NJ

Hello! I'm Rich, I have been coming to Village Family Clinic for about two weeks now. I have been having treatments on the decompression machine. **When I came in the office I could barely wall, now I can actually make it through the day and still have a little bit of energy.** Making appointments at the office are extremely easy. The staff is wonderful and it is truly a pleasure every time I come to the office.

Richard Reade

Hackettstown, NJ

I have been coming here for approximately two months now. I have been on the decompression tables approximately 25 times. As a result of the Decompression I am now back to walking my two and a half miles a day with very few stops. **I am actively doing my yoga and stretching, and for my age that's saying something!!**

Richard Murray

Belvidere, NJ

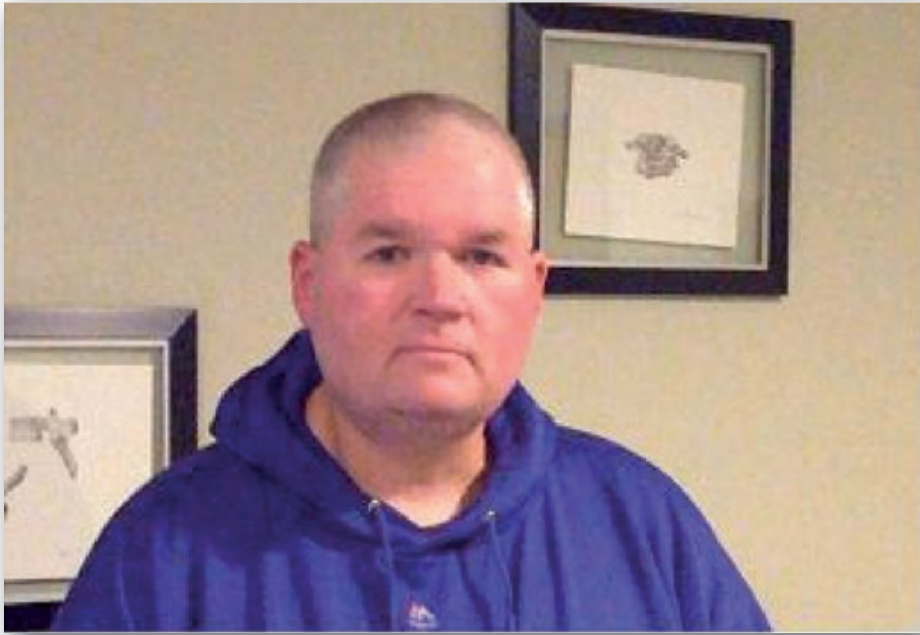

It's been amazing. I'm a cancer survivor so I've dealt with a lot of issues in my life – long term effects from chemotherapy and fatigue. **I get a lot of muscle aches so acupuncture has been incredible for me.** I have more energy. I've always been into different modalities of healing. I think the best thing about it is that it is complementary to any other treatments that you may do. It works in accordance with everything: herbal medicine, acupuncture. The approach here is all about the whole person. It is not just about seeing you. Everything is taken into account, your lifestyle, and diet, all of it. You are not just seen as a statistic. The entire person is taken into account which is really important especially in our culture today.

Tara Langella

Hackettstown, NJ

Hello. I really enjoy coming to Village Family Clinic. The people that work here are very helpful and friendly. I never have any trouble with long waiting times or making appointments. **They also help me when it comes to paying the bills and they make sure everything is getting settled correctly.** It is a very nice, clean, and organized organization and I really enjoying coming here.

Joe Bielski

Hackettstown, NJ

First off I would like to say a big thank you to Dr. Fedich and his staff because about six weeks ago **I walked in here hunched over unable to walk, with a cane at the age of 37.** I never thought I would be standing here saying thank you. Dr. Fedich and his staff are amazing, they have the technology and the ability to help anybody. **They told me when I first walked in here that they would help me get back to walking like my normal self, and they did!** They have amazing, amazing capabilities. I just want to say Thank you and here I am walking straight again and feeling so much better!

Jamie Cornell

Hackettstown, NJ

I have been coming here for three weeks, and my back did a three-sixty!! **Before I came in I was all crippled up, and now my back feels fantastic!** The girls at the office are all professional, they made me feel very welcome. The doctors at this office are excellent and I would recommend this place to everyone! They have a coffee machine that I use every time I come in. Sometimes they even have a popcorn machine and I enjoyed that too! Everyone is great in this office they made me feel wonderful, My back feels one hundred percent better!

Victor Sesta

Hackettstown, NJ

My name is Jeff and I have been coming to Village Family Clinic for about two years now. I work a pretty demanding job, lifting heavy things and climbing utility poles. **I also race and ride mountain bikes and Dr. Fedich always keeps me tunes up and on the trails.** The girls here are all very friendly and knowledgeable. Everyone at this practice is very nice!

Jeff Camporini

Hackettstown, NJ

Hello my name is Pat. I have been a patient for six weeks. I started coming here because I was losing the use of my right arm. **Using the decompressions machine, adjustments, and massage therapy I have regained most of the use of my arm,** and I will continue with treatment until I regain complete use of my arm.

Pat Monaco

Andover, NJ

I have been coming to Village Family Clinic for several years. It began when I felt as though my hip popped out of the socket. Dr. Fedich was able to make it feel better right away! I have come for various back aches, headaches, shoulder pain, and leg cramps. I feel rejuvenated after an adjustment. I keep coming back just for a “tune up”. The Doctors are knowledgeable and friendly and the staff is always welcoming. I refer everyone I know to Village Family Clinic! The relief of the pain and availability to see the Doctors when I need them the most is why I love this office!

Madeline Dean

Blairstown, NJ

Hi my name is Laurie Smith. I am a patient at Village Family Clinic. I just wanted to say thank you to Dr. Fedich and his staff for everything they have done for me! **My back feels so much better.** The decompression machine has really been helping and again I just wanted to say thank you!!

Laurie Smith

Hackettstown, NJ
